from the Office of the President:

The Secretary of Administration and Finance, the Governor's principal officer for the state's fiscal operations, has announced that the proposed new campus site in Dover will not be acquired. Frankly, this action must be viewed as another severe disappointment in the College's long quest for new facilities.

The final determination of the Dover site proposal is currently receiving review by our Board of Trustees. Meanwhile there are a number of short-term steps I have initiated to meet our critical facilities needs in the immediate and long-term future. These include:

1. special budget requests for increased funding to organize additional temporary leased space;
2. limitation of further enrollment growth so that with the additional leased space, the space-per-student can be increased substantially;
3. request for an immediate engineering study of necessary repairs and alterations of our main building; and
4. conduct of a survey of alternative properties available in the Greater Boston area as potential college sites or facilities.

Despite the negative response to the proposed Dover property acquisition, it should be noted that the College is otherwise receiving strong State endorsement and markedly increased fiscal support for its operations. The vitality and excellence of our programs are well recognized. It is hopeful that further plans for new campus facilities can be re-established early in this fiscal year.

From the desk of Sydney S. Kaplan, Dean of Administration:

A new telephone system has been installed to replace our former antiquated system. This new system has increased our expense and has tight budgetary constraints. We request that 1) phones be used for college business only, no personal calls; 2) that all persons follow the instructions on the pink card (dialing instructions) and not paralyze the system by inundating the operator with items that can be done by the telephone user.

The Secretary of Administration and Finance, the Governor's personal representative for the state's fiscal operations, has advised that the proposed budget for the year 1967 will be completed by the end of the month and that the Governor's budget will be submitted to the Legislature by the end of the month.

The final determination of the Governor's budget will be made by the Governor's Office. The Governor's Office has been advised that the Governor's budget will be submitted to the Legislature by the end of the month.

Special duties are assigned for the Governor's Office to ensure that the Governor's budget is submitted to the Legislature by the end of the month.
